We choose Bluemix™

A screenshot of the IBM Bluemix dashboard for the "CANCERLESS" application. The dashboard has a dark theme with a teal header. At the top, there are links for DASHBOARD, SOLUTIONS, CATALOG, and PROFILE. Below the header, the application name "CANCERLESS" is displayed with a teal icon. It shows deployment details: Instances: 1, Memory Quota: 128 MB, Available Memory: 896.0 MB (MB per Instance). There are buttons to "SAVE" or "RESET". Below these are buttons to "+ ADD A SERVICE OR API" and "+ BIND A SERVICE OR API". To the right, there is a "Featured Articles" section with two cards. The first card, titled "A Shout-Out to All Potential Guest Bloggers!" by THEIS DANG, features a background image of a person's face. The second card, titled "Such a Five-Month Rollercoaster" by THEIS DANG, features a background image of a roller coaster track. On the far right, there is a sidebar with user information (Mike Mayers, available) and navigation menus for Active Menu 1, Menu 2, Menu 3, Menu 4, and Menu 5, along with links for My documents, My images, and Secure data.
